VACANCY ANNOUNCEMENT

**LOCATION: CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD,
11020 SUN CENTER DRIVE, #200, RANCHO CORDOVA, CA 95670**

ENVIRONMENTAL SCIENTIST (04-150-86)

DUTIES: The Central Valley Region has one vacancy in its Sacramento Office for a permanent fulltime Environmental Scientist. Under the direction of a Senior Land and Water Use Scientist, the Environmental Scientist performs technical work in the San Joaquin River TMDL Unit. Duties include assisting in the preparation of load reduction programs and/or TMDLs that address water quality problems associated with point source and agricultural and other non-point source discharges of salt, nutrients, pesticides, and other contaminants. Specific work includes preparing reports, preparing correspondence, making Board presentations, assisting in development and implementation of monitoring programs, working with the public and interest groups, coordinating with other Regional Board programs, coordinating with other State and Federal agencies, managing contracts, developing implementation programs, and developing basin plan amendments.

NECESSARY QUALIFICATIONS: Effective communication skills including both verbal and writing skills; ability to work well with other disciplines; good customer service skills; proficiency in standard computer applications; must be able to conduct field investigations.

DESIRABLE QUALIFICATIONS: Understanding of the issues related to contaminant effects on beneficial uses in the San Joaquin River Watershed and the Delta; experience in: hydrology, water quality; fate of pollutants in the environment, including pesticides, nutrients, and metals; knowledge of State and federal water quality control laws; ability to organize, analyze and interpret water quality data and develop implementation strategies; knowledge and experience in water quality laws and regulations; ability to organize and direct watershed groups to solve water quality problems; ability to develop and implement major field investigations and surveys, conduct special studies, analyze technical data, prepare recommendations for water quality improvement, and prepare written reports and presentations.

WHO MAY APPLY: Applicants must hold a current Environmental Scientist appointment or possess list, transfer or reinstatement eligibility to the WRCE, Environmental Scientist, Land and Water Use Scientist, or Engineering Geologist classifications. Current reemployment, SROA and surplus provisions will be followed.

Permanent, Full-Time. Filing date: Open until filled. Submit applications and resume to Les Grober at the above address. For further information please call (916) 464-4851 or email at lgrober@waterboards.ca.gov.
